CUSTOMER CARE AND
DRIVER SUPPORT

Ruan offers customized Integrated Supply Chain Solutions to fit our customers' evolving business needs so they can focus on their core competencies. From Dedicated Contract Transportation and Managed Transportation to Value-Added Warehousing and Brokerage Support Services, our experts are committed to your mission and delivering results.

Ruan combines the **flexibility of our non-asset and asset-based capabilities with custom technology and superior expertise** to evaluate, optimize, and provide a one-source, integrated supply chain solution that delivers results. We understand customer challenges and customize the right mix of solutions that enable easier scalability through unrivaled expertise that streamlines operations and reduces risk – all with total transparency.

EASIER SCALABILITY

Ruan improves your ability to be nimble and grow by allowing you to tap into additional resources – including equipment, people, technology, and warehousing space – whenever and wherever needed.

TOTAL TRANSPARENCY

Ruan gives you complete assurance that your data is accurate, communication is proactive and timely, experts are accessible 24/7, and the status of your entire operation is available in real time, all the time.

UNRIVALED EXPERTISE

Ruan gives you access to a trustworthy, experienced team who understands your business and the industry, bringing outside-the-box thinking and customized solutions to solve your unique challenges.

REDUCED RISK

Ruan helps reduce the risk of delays, downtime, asset security, and safety issues in order to protect your company's reputation and products.

STREAMLINED OPERATIONS

Uncover opportunities for serious improvements to process efficiency, load efficiency, and workflow efficiency across your entire warehousing and logistics operation – making cost savings a reality.

Integrated Supply Chain Solutions

DEDICATED CONTRACT TRANSPORTATION

Eliminate the headaches of managing a private fleet or multiple partners and gain more time to focus on your business. We assume the risk, address labor issues, navigate regulations, and manage all equipment to keep your fleet running safely, on time, and with the capacity to adjust for fluctuations.

MANAGED TRANSPORTATION

Ruan's Managed Transportation team thinks like a shipper. We are an extension of our partners' logistics teams and make decisions in their best interest, including freight planning and execution, mode selection, carrier management, and network optimization. Ruan's transportation management system enables visibility to all freight in the network and provides actionable analytics to identify opportunities for continuous improvement and cost savings.

VALUE-ADDED WAREHOUSING

Overcome workforce challenges while improving productivity and reducing cost by combining world-class technology with an experienced team of dedicated warehousing professionals. Integration with Ruan's warehouse management system reduces touches, improves storage density, and increases overall flow efficiency.

BROKERAGE SUPPORT SERVICES

Rely on our Certified Transportation Brokers to manage volume surges and capacity challenges seamlessly. With no shipment volume requirements and no capital expenses, we can help our customers scale flexibly and instantly.
